PHYSIOLOGICAL REVIEWS

VOLUME 16

BALTIMORE, MD.
1936

CONTENTS

No. 1. January, 1936

The Synthesis of Proteins in Vivo. *Robert Saxelby Alcock*..... 1
The Kinetics of Hemolysis. *Eric Ponder*..... 19
Membrane Permeability to Solutes in Its Relations to Cellular Physiology. *Rudolf Höber*..... 52
Fetal Circulation and Respiration. *J. Barcroft*..... 103
The Nature of Bacteriophage and Its Mode of Action. *A. P. Krueger.* 129

No. 2. April, 1936

The Intermediary Metabolism of Fructose and Galactose. *Harry J. Deuel, Jr*..... 173
Electrical Phenomena in Large Plant Cells. *W. J. V. Osterhout*..... 216
Vitamin C, Ascorbic Acid. *C. G. King*..... 238
The Economy of Muscular Exercise. *D. B. Dill*..... 263
The Physiological Activity of Nucleic Acid and Its Derivatives. *Alan N. Drury*..... 292

No. 3. July, 1936

Wound Healing. *Leslie B. Arey*..... 327
Chronaxie. *Hallowell Davis and Alexander Forbes*..... 407
The Rôle of Vitamin C in the Organism as Suggested by Its Cystology. *Geoffrey Bourne*..... 442
Electrolytes in Muscle. *Wallace O. Fenn*..... 450
Endocrine Control of the Mammary Gland. *Warren O. Nelson*..... 488

No. 4. October, 1936

The Curariform Action of Onium Salts. *H. Raymond Ing*..... 527
The Cerebral Circulation. *H. G. Wolff*..... 545
Cardiac Metabolism. *E. W. H. Cruickshank*..... 597
The Blood Calcium and the Calcium Factor in Blood Coagulation. *John H. Ferguson*..... 640
Effects Produced by the Irradiation of Proteins and Amino Acids. *L. Earle Arnow*..... 671
